Fax: (828) 456-8797

J.M. Teague Engineering & Planning conducted sign and pavement marking training based on requirements of the Manual on Uniform Traffic Control Devices (MUTCD).

The MUTCD is a federal manual that lists requirements and recommendations for road signs, pavement markings, and traffic signals. All state and local governments within the United States are required to adhere to the MUTCD. Training notebooks and certificates were given to each participant and a copy of the MUTCD was given to the Town.
