

HAYWOOD COUNTY MRC FEASIBILITY STUDY

CLIENT:

Haywood County
Solid Waste Management

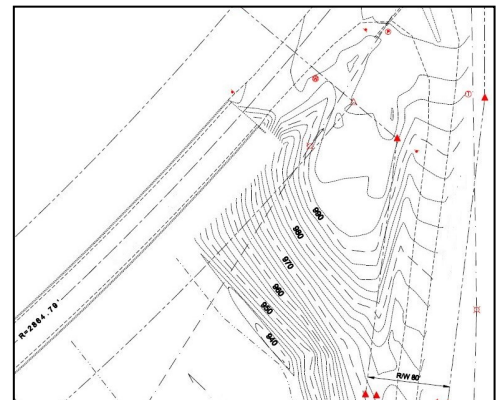

JMTE SERVICES:

- Feasibility Study
- NCDOT Collaboration
- Roadway Geometry Review
- Safety Review

LOCATION:

Haywood County, NC

J.M. Teague Engineering & Planning performed a site feasibility study on two properties for potential use as convenience center sites by Haywood County. Each of the properties were reviewed for location, local ordinances, topography, possible egress/ingress locations and space required for collection containers and movement of all vehicles within the site boundaries. The projects included collaboration with North Carolina Department of Transportation. The engineering review addressed the existing roadway geometry, potential egress/ingress placement, sight distance, vehicle interaction and safety.
