

# INTERSECTION SAFETY ANALYSIS

**CLIENT:**

Town of  
Black Mountain

**JMTE SERVICES:**

- Vehicle Speed Review
- Sight Distance Review
- Vehicle Turning Movement Counts
- Engineering Report

**LOCATION:**

Black Mountain, NC

J.M. Teague Engineering and Planning performed an intersection analysis to determine needed safety improvements. The Town of Black Mountain had received complaints from citizens regarding the potential safety hazards at this location and specifically wanted to explore the feasibility of All Way Stop Control.

The project included an engineering review of vehicle speed, sight distance and turning movement counts.
