Fax: (828) 456-8797

J.M. Teague Engineering & Planning (JMTE) provided comprehensive services related to applying for specific service signs (LOGO) from the North Carolina Department of Transportation (NCDOT) for the restaurant’s multiple locations.

JMTE prepared a formal request package, requesting inclusion of each restaurant in the LOGO sign program. The packages were submitted to NCDOT for review and approval. This deliverable also included research into business qualifications and LOGO panel space availability for each of Mi Pueblito Mexican Restaurant’s locations.
