

Comprehensive Roadway Assessments

J.M.Teague Engineering & Planning offers an assessment of roadway infrastructure conditions for municipalities, colleges and HOAs. With over 90 years of professional experience JMTE will inventory your existing transportation infrastructure and record existing roadway conditions. During the comprehensive survey JMTE will inventory pavement, curb & gutter, sidewalk, parking and regulatory signs. A Present Serviceability Rating and overall roadway condition is provided along with geospatial maps, rehabilitation recommendations and cost estimations. The customized report provides a risk management tool for the prioritization of infrastructure rehabilitation funds.

Comprehensive Roadway Assessment

- Pavement Condition
- Curb & Gutter
- Sidewalks
- Parking
